**Zanesville Citizens In 206 Automobiles Take Newark By Storm**

**CARAVAN WARMLY RECEIVED**

**By Delegation From Merchants' Association**

**VISITORS WERE GRATIFIED**

**With Reception Accorded Monster Party Which Celebrated Uniting of the Two Cities By Completion of Fine Pike—Two Bands Accompanied Enthusiastic Tourists.**

Newark witnessed a most advantageous display of the vigorous civic spirit of Zanesville when 1,100 citizens of that city in 206 automobiles came into the city at 3:30 o'clock Friday afternoon and swung around the public square, stopping at the Warden hotel for a buffet luncheon. Later the guests were shown over the city and conducted to Weiant's green house east of town.

The coming of the large delegation from Zanesville was a formal dedication of the new and excellent roads which now join the two cities. The party left for Newark at 1:15 o'clock and came over the newly-paved national pike and were met at Jacksontown by 150 Newark people in 30 automobiles who escorted the visitors the rest of the way to Newark.

To evidence the cordial hospitality of Newark the whole city was practically thrown open to the visitors, and the Zanesville people went away impressed with the hospitality of Newark people.

The machines were spread out over a distance of three miles and composed the largest automobile delegation from another city that Newark has ever seen. Gay decorations and banners carrying slogans bedecked the cars. One banner bearing the inscription "Zanesville cannot forget Newark since 1913" is an evidence of the firm bond of friendship that now links the two cities.

Other banners bearing slogans, "Welcome to the Zanesville people," "Welcome to the Zanesville people," "Preachers don't preach long in Zanesville," and "You can borrow money from your neighbors in Zanesville."

The towns along the way accorded an enthusiastic welcome to the tourists. At Gratiot a big banner was stretched across the road, reading, "We are on the map—Welcome good roads."

At Brownsville the school children were lined along the road cheering and singing and carrying banners and flags. A large banner across the road at each end and in the center of the town, read, "Welcome to the Zanesville people." Large crowds also turned out there to witness the parade. At Brownsville the Brownsville band in an auto truck joined the procession.

One of the main features of the parade was the Zanesville Chamber of Commerce Booster's band led by Col. Fred Geiger. After arriving in Newark the band marched about the town playing hotels and stores.

The Zanesville Times-Recorder in its account of the trip says: "Newark's reception was an ovation. Everything was turned over to Zanesville. A buffet luncheon was served at the Hotel Warden, theatres announced that Zanesville visitors would be admitted free and hundreds were entertained with a trip through the Weiant greenhouse, where they were served with ripe tomatoes fresh from the vines. Everything within reason was free everywhere, but Zanesville most appreciated the cordiality of the reception and the Newark smile."

"Representatives from every profession and trade were there to welcome representatives of the same lines from this city. Zanesville was gratified with the Newark reception. 'Billy' Deacon a local leader, saw that everybody had a good time."

"Tourmaster C. A. Baird stated last night that 206 machines carrying nearly 1,100 passengers, left this city and this number was greatly increased by machines joining the parade at towns west of this city."

"Many surrounding towns were also represented. George Speer of New Concord was among the visitors and the Crooksville Improvement association was represented by W. J. Day and Dr. E. J. Dozer."

The Chamber of Commerce band marched to the two newspaper offices and serenaded each with several selections. Henry Stennin, late of the Field's minstrel show, sang several songs which were appreciated by the assembled crowd and the staffs of the newspapers. For a small band this organization deserves much credit for the quality of music produced.

Newark practically declared a half holiday for the occasion and the visitors were welcome every place they went. The buffet lunch at the Warden hotel was free to all, and the

**Will Look After Labor's Interests**

David J. Lewis.

Congressman David J. Lewis of Maryland is the chairman of the house committee on labor which during the coming session of congress will again have the vexatious question of child labor before it and what to do for the welfare of the unemployed. The principal measures that will come before the committee will be the child labor bill, the national employment bill and the labor safety bill, the latter from the pen of Mr. Lewis.

## FORD CONFERS WITH CARDINAL ON PEACE PLAN

(Associated Press Telegram) Baltimore, Nov. 27.—Henry Ford, the Detroit manufacturer, called upon Cardinal Gibbons today to pay his respects and outline his plans for his proposed peace commission to Europe.

The cardinal devoutly echoed Mr. Ford's hopes for a successful culmination of the project by Christmas but he was averse to giving his formal approval. He said he felt there were too many formidable difficulties in the way to hope for its successful culmination.

Mr. Ford asked Cardinal Gibbons to suggest names of prominent persons whose interest he thought could be enlisted but the cardinal said he preferred to leave that to Mr. Ford's own judgment.

Upon leaving the cardinal, Mr. Ford said he was going to Philadelphia, where he had a dinner engagement with John Wanamaker.

**DELAWARE'S GOVERNOR DECLINES FORD'S PEACE INVITATION.**

(Associated Press Telegram) Wilmington, Del., Nov. 27.—Governor Miller has declined Henry Ford's invitation to accompany him to Europe on the proposed peace mission. The Governor today telegraphed Mr. Ford that official duties would not warrant him leaving the state for such a long period.

**Premier's Prophecy May Be Realized; Bulgars May Change**

(Associated Press Telegram) Paris, Nov. 27.—Newspapers of Bulgaria, says the correspondent at Saloniki of the Petit Parisien, "are declaring that the Bulgarian army, having conquered Serbian Macedonia, Bulgaria should be satisfied with its triumph, and seeing that Thrace is being retained by the Turks should not further the fears of the Serbians."

In fact the correspondent quotes the Bulgarian newspaper as saying, there are now seven Turkish divisions at Sufla, northeast of Dedegatch, one division at Mustapha Pacha, one division at Verna and one each at Burgas and Constantinople. The Bulgarian newspapers the correspondent says are strongly insisting that the question of Thrace has not been definitely settled and that with Germany's support Turkey in Europe should be replaced within the limits in which she was confined in 1911. The correspondent adds: "If the misunderstanding on this subject continues and in view of the recent speeches made by Premier Radoslavoff of Bulgaria, in which he declared that Thrace should be Bulgarian, the prophecy of ex-Premier Venizelos of Greece may yet be realized and the Bulgarians in the end may be found fighting on the side of those they formerly attacked."

**GERMANS BRAND PLOT STORY FALSE.**

(Associated Press Telegram) Berlin, Nov. 27.—(By wireless to Sayville.)—The Overseas News Agency says: "According to cablegrams from Washington, as published in England, it has now been proved that the sinking of the Lusitania was planned by Germans in the United States; that Count von Bernstorff reported the proposal to Berlin and that the German foreign office expressly approved the plan."

"These stories are ridiculous inventions, whose object is very easy to perceive. Every sensible person here expects the whole world will have sufficient common sense to value such reports at their true merit."

**NORWEGIAN STEAMER SINKS; CREW SAVED.**

(Associated Press Telegram) London, Nov. 27.—The Norwegian steamship Kiar has been sunk. Her crew of eight men has been landed.

## SERBIANS

**May Be Driven Into Greece By Germans Under Mackensen**

**UNLESS FRENCH DEFEAT BULGARIANS**

**Germans May Pursue Serbs Into Greece**

**DIPLOMATS IN ATHENS**

**Still Active In Efforts to Settle Definitely Question of Action of Allied Troops—Situation On Rumanian Frontier Continues Obscure—Late Happenings On Other Fronts.**

(Associated Press Telegram) London, November 27.—4:54 p. m.—The Serbians have recaptured Krushevo, in Southern Serbia, about 20 miles west of Prilep, according to a despatch to the Star, from Athens.

(Associated Press Telegram) Berlin, Nov. 27.—Via London.—German troops advancing in Serbia occupied heights on the left bank of the Sittica river west of Pristina. German headquarters announced today. The Austrians are advancing southwest of Mitrovitz. The capture of 2500 more Serbians is recorded.

(Associated Press Telegram) London, Nov. 27.—The Serbian forces soon will become an army without a country, unless the French should defeat the Bulgarians, four divisions of whom are said to be hammering at the French lines. Reports arrive from various sources that Monastir has been surrounded by Bulgarians and that they may not wait for their Austro-German allies before entering the Macedonian capital.

The main Serbian army retreating in a southwesterly direction before Marshal von Mackensen's troops, may find no rest even in Greek territory, as it is reported here that the invaders of Serbia would not hesitate to cross into Greece.

Apparently the German leaders expect the Serbians and their allies will await attack in Greece. It is said these operations will be under the supreme command of Field Marshal von Mackensen.

Additional reports from the battles at Ctesipon in Mesopotamia, near Bagdad, indicate that the British forces won a substantial success instead of suffering a reverse as first accounts led everyone to believe.

The diplomatic representatives at Athens of the entente powers are still active, their latest effort to settle definitely all outstanding questions being the presentation to Premier Skoufoudis of a note detailing measures deemed indispensable for the security and freedom of action of the allied troops.

The situation along the Rumanian frontier, where a great Russian force is said to have been gathered, is still obscure. The display by the Rumanian public of feeling in favor of the entente is regarded in London as an indication that the nation is in a position to disregard the demands of the central powers.

No definite news has been received of the renewed Austro-German offensive in Galicia. It is expected however that this movement will be pushed energetically for the political effect on Rumania.

**SERBS DESTROY COPPER WORKS; MANAGER GONE**

(Associated Press Telegram) Berlin, Nov. 27.—(By wireless to Sayville.)—The number of Serbian prisoners taken up to the present time by the German, Austro-Hungarian and Bulgarian troops, says the Overseas News Agency, "is 11,000 officers and men. The invading forces also have rescued 2,000 Austro-Hungarians who had been made prisoners by the Serbians, but later abandoned during the hasty retreat of King Peter's forces."

"With the capture of the Serbian towns of Mitrovitz and Pristina," the News Agency adds, "the last section of the railroad from Uskup to Mitrovitz was wrested from the Serbians."

Continuing the Overseas News Agency says: "Reports from the Balkan front state that the colonel in command of the Serbians in the Zoyecar district in retreating ordered the destruction of the copper works belonging to a French corporation. The blast furnaces, workshops and dwellings of the workmen were blown up and the pit was flooded. The manager of the works, a Hungarian by birth but a Bulgarian citizen, has disappeared."

"The German detachment now occupying the district is at work, restoring the copper mines to their former activity."

**NORWEGIAN STEAMER SINKS; CREW SAVED.**

(Associated Press Telegram) London, Nov. 27.—The Norwegian steamship Kiar has been sunk. Her crew of eight men has been landed.

**Two In Running for Senatorship**

Kenneth D. McKellar (top) and Malcolm R. Patterson.

Congressman Kenneth D. McKellar probably will be the next United States senator from Tennessee, displacing Luke Lea. The figures in the recent primary election put McKellar well ahead of former Gov. Malcolm R. Patterson, who ran second. Lea was eliminated. McKellar not having a majority will have to go before the voters December 15 in a "run off" with Patterson. Political forecasters declare he will maintain his lead.

## FOUR BILLIONS OF FRENCH LOAN QUICKLY TAKEN

(Associated Press Telegram) Paris, Nov. 27.—Paul LeRoy Beaulieu, the economist, estimated today that subscriptions to the new French loan may amount to 20,000,000,000 francs (\$4,000,000,000). Of this amount perhaps one-half will be cash subscriptions, the remainder representing conversion into the new loan of earlier issues of treasury notes and national defense funds. No official figures are yet available and other estimates of the total are at wide variance with that of M. LeRoy-Beaulieu. Officials of the treasury department express great satisfaction with the results thus far. Lines of subscribers at the bank of France and many other places were today as long as those which waited yesterday. The promptness with which all classes have responded to the call of finance minister Ribot has given rise to many odd incidents. A man with the cap and blue blouse of a peasant was asked at the bank of France what he was doing there. He said he had come to subscribe for 100 to 1,000 francs.

"I don't care," the peasant responded. "The less paper the better, but give me 100,000 francs worth."

He paid one-tenth of this sum in gold.

A significant detail of the loan subscriptions is the increase in gold held by the bank of France, coming from private hoards.

**BURCH SURVIVES POISON DRAUGHT FOR THREE WEEKS**

(Associated Press Telegram) Columbus, Nov. 27.—Harry C. Burch died at Grant Hospital today after having survived for nearly three weeks a dose of poison taken with suicidal intent. Burch was formerly manager of a prominent cafe in Third street, but had not been employed for nearly a year past, in a fit of despondency on Nov. 9 he swallowed a poison mixture. Burch came to Columbus five years ago from Hamilton where he was well known and is said to have been well connected. He is survived by his widow and a son and daughter.

**STAFFORD DIES SUDDENLY.**

Philadelphia, Nov. 27.—Charles Edward Stafford, 61 years old, for many years prominently identified with the steel industry of the United States, died of apoplexy today at Harversford, Pa., near here.

## PRESIDENT

**Maintains Strict Neutrality On Result Of Army-Navy Game**

**ON POLO GROUNDS NEW YORK**

**President's Party Arrives at Park at 2:00 O'Clock**

**CABINET IS PRESENT**

**Field Was In Fine Shape for Game and Navy Admirals Believe Its Possibilities Are Strengthened—West Point Cadets Are the Favorites in Betting Circles.**

(Associated Press Telegram) Polo Grounds, N. Y., Nov. 27.—The Army scored a touchdown and goal within a few minutes after the annual football game with the Navy started today, making the score 7 to 0. The Annapolis men fumbled on its ten-yard line, and West Pointers recovered the ball. Oliphant, former Purdue star, then smashed through the line for a touchdown, and kicked goal. The game was played in a drizzle.

Score end second period: Army 7; Navy 0.

(Associated Press Telegram) New York, Nov. 27.—Men who govern and guard the nation are here in thousands today to see the annual football game played by West Point and Annapolis. Streets and hotels are gay with the gold and gray of the army and the blue and gold of the navy. Admirals and generals, cabinet members, senators and representatives are as much in evidence as policemen. It is estimated that 25,000 persons came from outside the city to see the contest.

The great double decked stands at the Brush stadium where the major league baseball clubs play baseball all summer, began to gather a brilliant throng long before two o'clock the time set for the beginning of the game. The gridiron had been groomed to billiard-table smoothness and its condition comforted the adherents of the Navy who hoped for a fast dry field that would give the middie opportunity for the best defense against the heavy line plunging tactics expected of the cadets. Betting favored the Army on its record.

Early comers waited expectant for the arrival of President Wilson and his fiancée, Mrs. Norman Galt who left Washington this morning. A considerable portion of the president's cabinet including Secretary Daniels of the navy, and Secretary Garrison of the war department, arrived here last night or this morning.

The corridors of the two hotels where the rival eleven made their headquarters were thronged with gray haired alumni of Annapolis and West Point.

The regiment of midshipmen left Annapolis early in the day and the cadet battalion started from West Point soon after, in time to arrive at the scene of the game and march on the field shortly before the ball was put in play.

The probable lineup is as follows:

**Army.** Neyland, I. e. . . Von Heimberg, I. e. Jones, I. t. . . . . Ward, I. t. O'Hare, I. t. . . . . Kercher, I. t. McEwan, c. g. . . . . Goodstein, c. g. Weyand, c. r. t. . . . . Smith, r. g. Redfield, r. e. . . . . Gillman, r. e. Gerhardt, c. b. . . . . Craig, q. b. Ford, I. h. . . . . Westphal, I. h. Oliphant, r. h. . . . . Davis, r. h. Coffin, f. b. . . . . Martin, f. b.

Officials of the game:—Referee, W. S. Lanford, Trinity; Umpire, F. W. Murphy, Brown; Field Judge, J. A. Evans, Williams; Head Linesman, Carl Marshall, Harvard.

President Wilson and his party who are to witness the game arrived at the Pennsylvania depot at 1 p. m. today. Automobiles were in waiting and the president and his guests were driven direct to the Polo Grounds in Upper New York.

The party occupied two private cars attached to a regular train. Accompanying the president were Mrs. Norman Galt, Mr. Wilson's fiancée; Mrs. William H. Bolling, Mrs. Galt's mother; Miss Bertha Bolling, Mrs. Galt's sister; Secretary and Mrs. McAdoo, Mrs. Anne Howe, the president's sister; Mrs. Ann Cuthran, a daughter of Mrs. Howe and her little daughter, Miss Josephine Cuthran, a daughter of hrduhrldurdrun; Secretary Tumulty and Dr. Carey T. Grayson the White House physician.

At the game the president will sit first in a box on the navy side of the game, and next in the army side.

The party will return to Washington Monday morning.

President Wilson and his fiancée, Mrs. Norman Galt and their party drove on to the field in automobiles at 1:49 p. m.

The president and his party took boxes directly in front of the navy cheering section.

**Football Hero is Sued By Ohio Girl**

Louis A. Merillat.

The way of a football hero with a maid is told from the point of view of Miss Helen Van Nest of Wooster, O., in the declaration of a \$20,000 breach of promise suit filed in Chicago against Louis A. Merillat. Merillat, a West Point Military Academy graduate, was captain of the army football team last year and was picked by several eastern critics as a member of the All-American football team. He was recently married.

## UNITED STATES FOREIGN TRADE STILL GROWING

(Special to the Advocate.)

New York, Nov. 27.—Mr. Henry Clews, the banker, said today: Our foreign trade continues on its phenomenal course and is building up the greatest favorable trade balance on record. October exports reached a new high level, amounting to \$334,600,000, which was almost \$40,000,000 in excess of September. The imports for October were only \$148,500,000, leaving an excess of exports amounting to \$186,000,000. During the past 12 months our total foreign trade exceeded \$5,000,000,000.

No early end of the war is in sight, but the emergency orders for the allies are being satisfied, and their continuance on the recent scale is probable. One of the most significant and satisfactory results of the war is its stimulating effect upon American enterprise. More than anything else it has forced upon us recognition that we are a world power, commercially and industrially as well as politically. We have too long considered ourselves self-sufficient, and labored under the delusion that we could indefinitely shut ourselves in and others out. We must awaken to the fact that we are a nation of grown-ups; we must take our place in the world's affairs accordingly and adapt ourselves to the new opportunities and new obligations that are fast pressing upon us. With the growth of population the United States is rapidly changing from an agricultural nation to a nation of manufacturers.

**ZEALANDIA EVADES UNKNOWN CRUISER OFF JERSEY COAST**

(Associated Press Telegram) New York, November 27.—The American steamer Zealandia, which was recently boarded and searched by an officer and men from the British cruiser Iris at Progresso, Mexico, arrived here today and reported having been pursued last night by an unknown cruiser off the New Jersey coast.

Captain Devantier said that at 11:30 o'clock last night when he was between Brigantine shoals and Tucker's Beach a cruiser bore down upon him and signalled with the Morse code. The night was unusually hazy and the Zealandia ran inside the three-mile limit and then escaped the cruiser. The captain said the cruiser was in sight for half an hour when it disappeared in the fog.

The Zealandia had on board today the original cargo of resin which was loaded at Pensacola, Florida, before the vessel sailed from Progresso. She was at Progresso seven days, sailing from there November 20 for New York.

The vessel was owned by the Fiske Trading company of New York.

**POPE MAY AGAIN ASK FOR TRUCE OVER CHRISTMAS**

(Associated Press Telegram) Rome, Nov. 27.—Although the efforts of Pope Benedict last year to obtain a truce among the warring powers over the Christmas holiday, did not succeed, it is reported on good authority that the pope will make a similar attempt this year. He is said to have brought up this question during his conference with Cardinal Von Hartmann, archbishop of Cologne.

## NOGALES

**Evacuated By Villa Troops And Occupied By Gen. Obregon**

**ADDITIONAL U. S. SOLDIERS ARRIVE**

**Cause Feeling of Relief In Arizona Town**

**AMERICAN SOLDIER DIES**

**And Two Others Wounded When Villa Snipers Fire Across the Border—General Obregon Causes Execution of Mexicans Who Are Charged With Looting Town of Nogales.**

(Associated Press Telegram) Nogales, Ariz., Nov. 27.—With the evacuation of Nogales, Sonora, by General Villa's forces and the arrival here today of an additional 1700 U. S. infantrymen to reinforce the border troops at this point, residents of this town expressed a feeling of security such as had not been enjoyed since Villa forces took possession of Nogales, Sonora, following their defeat at Agua Prieta.

There was evidence of renewed confidence in every quarter and the belief was generally expressed that should there be a recurrence of the exciting events of yesterday when Villa snipers fired into American territory from the Mexican side, killing one U. S. soldier, and wounding two others such an attack would meet with prompt and vigorous response.

The troops scheduled to arrive today compose a provisional brigade made up from the seventh and twentieth regiments of U. S. infantry stationed at Douglas, Ariz.

Herbert L. Cates, private in Company L, of the Twelfth infantry was the most seriously hurt of the two wounded American soldiers. He is shot in the abdomen. An operation performed last night was reported to have resulted satisfactorily and it is believed that he has an even chance to recover. Arthur L. Saupé, private in the same company was shot in the right foot.

The dead American soldier was Stephen Littles, 22 years old, who also was a member of Company L. His home was in Fairmount, N. C. Evidence that, any attempt at looting in Nogales, Sonora, on the Mexican side of the border by Carranza forces would be summarily dealt with was conveyed to the American side last night in reports that members of General Alvaro Obregon's forces, who entered the town following the evacuation by Villa forces, had executed eight alleged looters.

Among the men executed were a Carranza captain and three Carranza soldiers. Four others whose identity could not be learned, also were executed. Latest reports of the casualties among the Villa snipers, whose firing into American territory precipitated the battle yesterday, placed the total dead at more than forty.

Efforts to ascertain the exact location of the Villa forces who evacuated the Mexican town opposite here, thus far have proved futile. It was generally thought however that they had escaped toward Hermosillo, where for several days Villa soldiers have been endeavoring to take the town for the Carranza troops.

At a conference last night with a representative of General Obregon, Col. W. H. Sage, commanding the U. S. troops, explained that the firing exchanged between the Americans and the Carranza cavalrymen was due in a measure to the lack of information by him that General Obregon's forces under Col. Cardenas were approaching so closely.

Col. Sage receiving an affidavit last night from Josias Urban, a fireman who worked with Edgar Bean, the American locomotive engineer who was killed in Sonora early this week, which asserts that the Villa commander Beltran shot Bean with his own hand. According to the affidavit the shooting took place when the locomotive which Bean was driving jumped the track after leaving Cananea where the Villa men had looted a bank and the properties of the Cananea consolidated Copper company.

General Obregon is preparing today to take the field in an effort to drive down the remaining Villa soldiers who fled from the Mexican town. Reports from across the border said General Diegues, in command of the Carranza forces defending Hermosillo, capital of Sonora, had sent soldiers northward from that city. General Obregon, it was said hoped to corner the Villa soldiers by sending a column south from Nogales.

Early today a work train was dispatched from Mexican Nogales toward Hermosillo to repair the tracks damaged yesterday when the Villa garrison evacuated. This was followed by a military train filled with soldiers.

Herbert L. Cates, private of Company L, twelfth infantry, seriously wounded yesterday, rallied to town (Continued on Page 8, Col. 2.)

## Zanesville and Newark.

More than eleven hundred Zanesville people visited Newark yesterday afternoon, the visit marking the completion of the splendid concrete pike which makes Zanesville and Newark next door neighbors.

Newark played the role of host and was delighted to extend the glad hand to her guests and the Zanesville men expressed their pleasure at the cordiality of the reception.

Zanesville and Newark are towns of practically one size. Each has approximately 20,000 people. Both are manufacturing towns. Both are good towns and for years the towns have been rivals.

There was a time when more bricks than bouquets were thrown from one town to the other and this condition of affairs existed up to the time of the great flood two years ago last spring. Zanesville was hit hard and Newark came to the rescue. Zanesville papers printed pages about the help Newark was extending and in the history of the flood published later recognition of the service rendered by Newark was given a conspicuous place.

That flood which wrought great damage to Zanesville also wiped out every trace of antagonism between the two towns and from that day to this nothing but the friendliest of feeling has existed between the two cities. Zanesville has recovered splendidly from the flood's damage and is marching forward at an inspiring pace.

Recently the Zanesville chamber of commerce had a big meeting attended by Senator Burton and at which a trans-continental telephone demonstration was given. The officers extended an invitation to a number of Newark people and when a similar demonstration was given here a little later the compliment was returned.

The completion of the new pike brings Zanesville and Newark very close together. The trip by automobile over the old National road is indeed delightful and will be enjoyed by residents of both Muskingum and Licking counties to the fullest extent. One may now jump into a machine and drive to Zanesville as quickly as he could go from Newark to Granville with a horse and buggy.

There is every reason why Newark and Zanesville should be on the best of terms and we are glad to note the friendly relationship that exists. Now that Zanesville people have found the way to Newark over the new road we hope sincerely that they will come again soon.

## Success of Frauds.

A Department of Agriculture Bulletin calls attention to the selling of certain imitations of foreign patent medicines. The supplies of these being cut off by the war, unscrupulous makers in our country are getting a harvest out of worthless substitutes. In spite of all the campaign for pure foods and drugs the public must still be vigilant. There is, however, a growing sentiment against false labels.

Herring are good little fish, and they might sell just as well even if they weren't labelled Sardines. Is it necessary to label as calf some shoe cut from the skin of an ancient animal ready to drop from old age? It does not make the boarders like skim milk any better to call it cream. People with an ordinarily developed sense of taste can detect the fact if sugar is partly flour and starch. And if roasted acorns and grains are put into coffee, the consumer detects it, and the dealer who sold it to him suffers.

The American people are rather tolerant with frauds. Public senti-

## Dishonest Advertising.

The Federal Trade Commission has taken up the matter of dishonest advertising on representation of the Associated Advertising Clubs. President H. S. Houston of the clubs argued before the Commission a few days ago, that such advertising is unfair competition, and hence comes under the commission's jurisdiction. Merchants used to argue that the public discounted their statements and they had to paint the thing in high colors to attract attention. This style of advertising is getting obsolete.

Modern advertising authorities urge plain statements of fact and figures, with the effort to give an impression of frank sincerity.

Wild cat mining stocks and business enterprises, impossible cures for disease, there is still a lot of that sort of thing that hurts the whole advertising business. Local journals depending on their home constituencies use but little of this stuff. They are too close to the public, and would be affected too quickly by the losses of people deluded by these deceptions. It would be a boon to the legitimate newspaper business if all these fakes could be cleaned out.

The bloody Injuns who used to take scalps from innocent colonists and torture them at the stake would have got a lot of ideas if they had been able to look into the future European war.

After growling about the cost of Thanksgiving turkey, many people ordered the market to get out a team and make a special trip to their house to deliver the bird.

The man who will sit out an hour and a half on a freezing day to see a football game may be the same one who caught cold because his wife did not build a fire.

The popular time to burn up back yard refuse is a good windy day when the smoke is blowing away from your house over to the neighbors.

A fellow may feel disappointed in not being able to own an automobile, but he gets a lot of satisfaction in telling jokes on the Ford car.

The fact that a hunter hears a rustling in the bushes is not a sufficient excuse for blazing away where he may see leaves moving.

## Penrose for President.

(Milwaukee Journal, Rep.)

It will doubtless come as a shock to very many people that Senator Penrose considers himself available for the Presidency. At the close of the campaign of 1912, when the Republican party almost unrecognizable fragment of its former self, the names of Barnes and Penrose were coupled with its defeat. Nothing seemed farther from the possibilities than that Penrose should within three years think himself a suitable candidate for the Presidency.

But why not Penrose? Men who have stood for the same policies are the most prominently mentioned candidates today. Mr. Root, who must have played the Penrose game at the Chicago convention, was until the defeat of his Constitution in New York looked upon as perhaps the most probable candidate. Senator Burton, for whom violent efforts are now being made, voted for the Aldrich bill and has been identified with the leaders in the Payne-Aldrich Congress. Mr. Roosevelt, during seven years in the White House, was not on record against the Penrose school of tariff for privileges. The Republican party has given no slightest proof that it is standing for anything other than what it stood for in 1909 and 1912.

Of course there are pretty things thrown out for bait to Progressives. But Mr. Penrose in "the know" has a discount bright promises which hold no pledge of fulfillment. There are things about Mr. Penrose's record which may seem to the country to make Penrose an impossibility. But can Mr. Penrose be expected to see the difference between one man who has stood for Government bounty to monopolies and another? He knows that the party control is in the hands of the stand-patters and reactionaries. Who among them has a greater name than he? Therefore, why not Penrose?

## Belgium's Distress.

(Rochester Post-Express.)

Gifford Pinchot, late candidate for United States Senator in Pennsylvania, is home after some months in Belgium and Holland, telling in New York City pulpits the conditions he found there. His investigations show that while Americans are donating millions of dollars to relieve destitution in Belgium, the invaders are extracting millions of dollars from that impoverished people, the taxes, having been increased fourfold upon their wasted lands and ruined or stagnant towns.

This statement made on his own knowledge by an American of high character, will be accepted as conclusive. The unfortunate effect it is likely to have will be to check the flow of supplies to that suffering people and discourage the movement to help the Poles, whose poverty is still more pitiful. It should not lessen the efforts of the charitable, but it probably will, since the benevolent can reason that their gifts bring new exactions on the suffering people, the invaders being thus in the last

## Submarines in the Straits of Gibraltar.

German submarines have been unable to pass through the Straits of Dover or to attack transports carrying troops from England to France across that narrow waterway since the early days of the war, because the passage is blocked by chains and nets, anchored, buoyed and guarded by torpedo boats and other war vessels. It is often asked why the British do not block the Straits of Gibraltar in the same way and keep German submarines out of the Mediterranean Sea. At the narrowest point the Straits of Dover are 21 miles wide and the Straits of Gibraltar are only a little more than eight miles wide, but the former channel is shallow enough to give good anchorage while the latter is 1,000 feet deep with a current setting inward at three to six miles an hour and a deep undercurrent running out into the Atlantic Ocean. The average depth of the navigable channel at Gibraltar is nearly 700 feet, and it is impossible to anchor in any part of a stretch of more than four miles across the middle of the Straits of Gibraltar. No doubt everything possible will be done to block this channel, but the methods successfully employed at Dover are not feasible.

## Books for Children.

To say that boys do not demand adventure stories, and that they shouldn't have this demand supplied, would be ridiculous. Any good teacher or wise parent knows, of course, that mere prohibition is an ineffective and silly weapon. Not "Don't" but "Do," not prohibition but suggestion, is the method to apply. Give the young boy books, give him plenty of books, let him read and browse, and have his fill of adventure—but, see that these books are the right sort. Find out what they are like yourself before you put them into your son's hands. They may be dynamite, as Franklin Matthews says, to blow your boy's brains out. Don't sacrifice his brains, his imagination, all his chances of future literary taste, sense of style, appreciation of good writing, for the sake of saving 50 cents.—Woman's Home Companion.

## Leading Y. M. C. A. City.

Chicago has acquired a new distinction and one which it may well be proud. It is now the leading Y. M. C. A. city in the world. The recent campaign to increase the membership of the local organization has easily put it ahead of all rivals. As a speaker at a public rally held by the workers in the campaign put it: "The Chicago Y. M. C. A. stands supreme. It has the largest number of departments, the largest endowments and building fund and the largest membership. The total number of members at present is 20,702, of which number 5,424 were added as a result of one week's efforts. In listing the claims of Chicago to consideration in the future no one will be likely to overlook the very substantial one that the city has just gained.—Chicago Herald.

## Joyous Pacifists.

A true reformer is never quite unhappy as long as he can think up something else that is going to ruin the nation in a given time.—Ohio State Journal.

## Fire Versus Life Insurance.

Of the 12,000,000 or so dwellings in the United States 96 per cent are protected, at least to some extent, by fire insurance. But of our 109,000,000 inhabitants only 18 per cent have taken out life insurance policies. Men seem to be more uneasy over the mere possibility of the burning of their houses than over the stern certainty that death will some day overtake them. This is a strange contradiction of human nature. To safeguard the nation's material possessions is well, but how much more valuable than the homes are the human lives of the country. In this age, when the principles of life insurance are so well understood, there should be no such discrepancy between the number of homes and of lives insured. In many instances the former could not be saved from foreclosure were the earners of incomes to pass away leaving their families unprotected for. It is as much the duty of every man to insure his life as to insure his property, and if he has no insurable property there is all the more reason for insuring his life.—Hermit in Leslie's.

## Book Borrowers.

Some folks are rather funny; if they should borrow money, they're sure to pay it back; they're straight, they're never willing to owe a man a shilling, a shorun or a tack. In all life's common phases they are as prompt as blazes, a debt gets on their nerves; they are so blamed punctilious it fairly makes one bilious to contemplate their curves. But when they borrow novels, and take them to their lovels, to keep nine days or ten, they may be sure the chances are that those fine romances will never

"Why," replied the architect, "he will bet a boob a dollar that the boob can't get a billiard ball into his mouth. And the boobs always fall for what looks like a cinch. The boob gets the ball into his mouth, all right, and then the dentist charges him \$10 to remove it."

The fellow who has enough will power to quit smoking never seems to have enough will power to quit bragging about his will power. ## Women Have the Power to Silence the Guns of War

By RABBI STEPHEN S. WISE, Free Synagogue, New York City

DO not say that wars will end when women have the vote, but I will essay the role of the prophet in this one instance and say THAT THERE IS NOT GOING TO BE AN END TO WAR BEFORE WOMEN HAVE THIS VOTE.

Did I know that war would continue from time to time and that the terrible organized slaughter which is now taking place would come again and again at intervals I would ask women to refuse longer to become the mothers of men. I can conceive that the time will come when women will say:

"EITHER GIVE US A SHARE IN THE GOVERNMENT OR ELSE WE WILL NO LONGER BE MOTHERS."

The cause of equal suffrage is one additional symbol of the history of a great movement, of the awakening, the revolt, the uprising of women against centuries of wrong and injustice, for repression and suppression are wrong and injustice.

### Homing Instinct of Crabs.

Who would believe that among creatures having well developed domestic instincts we must include the humble crabs, the "spiders of the sea," as Victor Hugo calls them? Once under water, we might expect one part of the sea to be as homelike as another, but that only shows how little the average human being understands a crab's point of view. Some one, however, suspected them of the homing instinct and so tried the experiment of catching a pair of them on the Yorkshire coast, in England, and, after marking them, carrying them south fifty miles or more, returning first one and then the other to the water at different points on the shore. Then the Yorkshire crabs carefully searched their traps as they made each haul, on the lookout for the possible return of the wanderers. Strange to relate, one day not one, but both of the crabs were caught a second time, having made their way back across the intervening miles of sea bottom to their Yorkshire home.—St. Nicholas.

### Waterspouts.

The waterspout at sea and the tornado on land are manifestations of great instability of the atmosphere in a vertical direction, caused either by an abnormally warm surface layer of air or an abnormally cold layer at the cloud level, says Nature. The former cause is common in summer; the latter occurs both in summer and winter and is usually associated with a "line squall" or V shaped barometric depression. The waterspout shows the track along which surface air passes spirally upward to restore equilibrium. The commotion of the sea is due to the exceedingly violent character of the phenomenon. The funnel itself is probably composed partly of moisture condensed out of air by the sudden diminution of pressure which occurs and partly of sea water in the form of spray. Sometimes the middle portion of the visible funnel is absent, but there must in that case be a rotating, spiraling complete funnel of corollating air from the surface of the cloud.

### Melancholia.

Melancholia does not mean depression of spirits. A man may be as depressed as it is possible to be and still not have melancholia. Melancholia is despondency on account of painful delusions. One of the two typical delusions of melancholia is that the unpardonable sin has been committed, that God has been offended beyond redemption and that hell is to be the ultimate goal; the other is that of impending poverty. Everything is lost or is about to be. The patient and his family are going to end up in the poorhouse. His acts alone have brought about this terrible calamity from which there is no escape. It can be readily seen that a person having delusions of this type must be necessarily depressed. There is probably no form of insanity in which the anguish of the patient equals that of the melancholic. Life is one continuous horror.—Exchange.

## In All Sorts of Weather Peruna Is An Ideal Protector

Mr. George A. Douglas, No. 49 East 131st St., New York, N. Y., writes:

"As my work compels me to spend a large part of my time out of doors, I have often been drenched by sudden rains, chilled by extreme cold, and I soon found that I had a bad case of catarrh of the bronchial tubes. I tried plasters and medicine, but nothing I did seemed to help me until I took Peruna. This splendid medicine took right hold of me, drove every bit of the disease out, and built me up until I felt stronger than I had for years. Whenever I have been exposed now a couple of doses always restores me. Peruna is an ideal protector in all sorts of weather."

Peruna has probably cured more cases of catarrh than any other remedy in existence. Catarrh nearly always depends upon a depressed nerve center. Peruna is a natural invigorant that enables the system to overcome the catarrhal condition. We have thousands of unsolicited testimonials to prove these statements beyond all cavil.

Those who object to liquid medicines can now procure Peruna Tablets.

## In Milady's Boudoir

By Gwen Sears

Added height is not obtained by stretching the bones to a greater length of bones do not grow much during past and middle life, but stretching pulls the bones apart and allows a greater growth of cartilage to accumulate between, and in this manner your height may be increased from one to three inches.

There are mechanical means for stretching, but one can at a nominal cost construct such an affair that will answer the purpose just as well. To do so, secure a pulley to the ceiling or top of a door casing, about ten feet of heavy cotton clothesline and two iron staples. Form from the rope two loops sufficiently large to allow the feet to enter, fasten these loops to the floor with the staples directly under the pulleys overhead.

The long rope is passed through the pulley and one end of it tied to muslin bands or towels, which have previously been made to fit over the arms. Slip the feet through the loops, the arms in the bands and proceed to stretch by pulling down on the rope. Let someone else do the pulling and allow your arms to hang if it is convenient to have someone assist you.

Each individual must determine how long to continue this treatment. Take your measurement of height before you begin and after each treatment. As you stretch, you will find you can work your measurement to even a greater height by persistency.

## Your Boys and Girls

The woman who retains love and respect is the true wife and mother. She presides over her home and children with heart and head, demonstrating kindness and ability. Let parents, the father as well as the mother, impress upon their young daughters that the woman's true sphere is in the home, and that even participation in the affairs of the educational and business world, does not detract from the dignified duties of the home.

Back to the home is the cry going up from thousands. Let us educate our daughters for true womanly worth. Give them the highest education within our power, but keep them close to our hearts. Teach them the rudiments of housekeeping and graceful home making, keeping the one great truth before them that a woman is most satisfactory to herself and those dear to her when she is a womanly woman, firm and capable, but kind and gentle, keeping her pathway through life bright and good.

## Every Day Etiquette

"What is done with the engagement ring during the wedding ceremony, is it left on the hand and the wedding ring placed over it?" was Helen's query.

The engagement ring is usually transferred to the right hand before the ceremony and used afterwards as a guard for the wedding ring," said her aunt.

### Saving Bread.

Mother—"Oh, Eric! I thought you were going to economize to help the poor Belgians, and here I find you with both jam and butter on your bread." Eric—"Why of course, mother! One piece of bread does for both."—Judge.

### "On" His Job.

"The ideal is seldom attainable." "Not so in the case of a suburban home," chirped the real estate agent. "Now, I gotta place for sale on easy payments."—Louisville Courier-Journal.

## Woman Suffrage Movement a Fight For Democracy

By the Rev. JOHN HAYNES HOLMES, New York City

THE suffrage movement is simply one expression of the modern fight for political and industrial democracy. It is one of the last of the long series of battles for the complete emancipation of mankind. In the case of this fight, as in the case of every fight for an extension of democracy, the foes to be fought and overcome are those of ignorance, prejudice and selfishness.

Nothing, however, in the long run can stop progress, the progress of democracy, and nothing in the long run can stop the triumph of woman suffrage.

INDEED, IN VIEW OF WHAT HAS BEEN ACCOMPLISHED IN THE LAST FIVE OR SIX YEARS, I AM PERSUADED THAT THE FIGHT FOR WOMAN SUFFRAGE WILL BE PRACTICALLY COMPLETED IN THIS COUNTRY LONG BEFORE OTHER AND DEARLY SOUGHT CAUSES OF DEMOCRACY ARE CARRIED THROUGH.

## PILES CURED AT HOME BY NEW ABSORPTION METHOD.

If you suffer from bleeding, itching, blind or protruding piles, send your address and I will tell you how to cure yourself at home by the new absorption treatment; and will also send some of this home treatment free for trial, with references from your own locality if requested. Users report immediate relief and speedy cures. Send no money, but tell others of this offer. Write today to Mrs. M. Summers, Box F, Notre Dame, Ind.

There is more catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure, therefore required constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circular and testimonials. Address: F. J. CHENEY & CO., Toledo, O. Sold by druggists, 75c. Take Hall's Family Pills for constipation.

**He Didn't Sprout Horns.**

The first Japanese to drink milk did so with misgivings lest he sprout horns like a cow. That was in 1861. The man that took that big chance is Mr. Teubol, who is still alive and absolutely free from horns.

At that time Mr. Teubol was an apprentice. He became ill of a disease that baffled the skill of the Japanese physicians, so his master called in Dr. Hepburn, an American physician, who then lived in that district. Dr. Hepburn prescribed milk, one bottle to be "taken" every morning. The poor boy, believing that the growth of horns was inevitable if one drank cow's milk, begged his master not to make him take the doctor's prescription, but his frantic pleas were denied.

There was considerable difficulty about getting milk then because, as there was no demand for milk—the greater part of the population sharing the boy's belief that its consumption was sure to raise horns—there was no dairy or milkmen. Finally some was obtained from a Japanese who cared for a cow kept by a foreigner—Japan Advertiser.

**The Horned Lark.**

Looks like Satan, the horned lark does, with his two black horns of feathers sticking out on top of his head. He wears a suit of a grayish brown touched with pink. A black curve over his eyes and another black crescent under his chin help give him a wicked aspect. His satanic topknot, the two tiny tufts of black feathers on the back of his head, gives him the name. He's the horned lark.

But really he's not so bad as he looks. You know that the minute you see his brown eyes and hear him sing. The farmer knows he isn't such a wicked bird too. The horned lark eats all kinds of wild seeds, beetles, weevils and bugs. If he gets tired of his diet he will start in and clean up the grasshopper and cutworm crop.

Sometimes he will visit an oat field, but he doesn't cause enough damage to get his picture in the rogues' gallery as a dangerous thief. —Philadelphia North American.

**Nursing a Grouch.**

What a dissatisfied bunch of mortals we are! Three hundred and sixty-five days of the year we grumble about the weather. It's either too hot or too cold, too wet or too dry. You meet a friend who says, "It's a fine day today!" You answer, "Delightful!" The next one you meet says, "Ain't this beastly weather?" You answer, "The foulest ever!" You're always ready to agree with and join the knocker. Even the poor, innocent weather cannot escape your hammer. Everything in this world was made wrong—except your self, I mean. You are the quintessence of perfection in your own mind. When you're invited to a party you are mad because you are invited, and if you are ignored you're mad again just because that condition fits your disposition. Why don't you, for a change, look at the bright side of things and maybe your "disgustion" will improve. —Carthage Magazine.

**Some Kinds of Talking Women.**

The woman who tells you all about something in such a way as to leave you in complete ignorance of the essential things which you wanted to know about.

The woman who flatters you about yourself as a screen to give herself the opportunity to talk about herself.

The woman who is silent when she has nothing to say. This woman talks incessantly.

The woman who asks you what you think about something and then heads you off from telling by keeping on talking herself.

The woman you marry.—Life.

**Temperament in Folly.**

The fool in his heart saith a number of things. Suppose he happens to be a phlegmatic fool with a fondness for luxury.

"I do not care," saith he, in that case, "to go out into the damp, chill moods and mistake a toast for a mushroom. I much prefer to get up in the night, in my comfortable flat, and drink out of the wrong bottle." —Boston Journal.

**Good Prospects.**

"What, you want to marry my daughter? Why, you haven't a cent in the world! How do you expect to support her?"

"That will be easy enough. As soon as I'm known to be your son-in-law I can get all the credit I want." —Pittsburgh Press.

**A One Sided Rule.**

Once when P. T. Barnum was taking tickets at the entrance of his circus a man asked him if he could go in without paying.

"You can pay without going in," said Barnum, "but you can't go in without paying. The rule doesn't work both ways."

**Hydrofluoric Acid.**

Hydrofluoric acid is the best agent to use for removing sand from castings, particularly those of iron and steel, as it attacks the sand and dissolves it, while other acids attack the metal and only loosen the sand so that it falls off.

**Alaska.**

Alaska has an area of 600,000 square miles, one-fifth the size of the United States, which means that it will make fourteen New Yorks and nearly 500 Rhode Islands.

**Tempering Steel.**

It is significant that in the matter of tempering steel we are no further advanced than our ancestors of some 5,000 years ago.

A poet not in love is out at sea.—Bailey.

**At the Mazda.**

The Mazda program for next Tuesday and Wednesday will present to lovers of good photo-plays a real treat when "An Enemy to Society," photo dramatization of George Howard's famous story has its initial showing here. This is another of the distinctive photo-plays produced by Metro company and it promises amply to live up to the high standard of the Metro program. Hamilton Revelle, the noted actor, and Miss Lois Meredith, justly called the dearest of stage prima donnas, divides the honors between them and the combination is exceedingly effective. Mr. Revelle in the role of the enemy to society, who learns his real identity and finds regeneration by means of his love for the beautiful Decima Durell. The character which Miss Meredith portrays registers one of her dramatic career. The two stars are supported by an unusually strong cast. "An Enemy to Society" forms an absorbing romance brimful of the elements of love mystery and intrigue. It has few equals among screen offerings of the present season.

**Alhambra Sunday.**

Jesse L. Lasky, in association with David Belasco, presents Edith Wynne Mathison in a picturization of the famous Belasco success, "The Governor's Lady," by Alice Bradley.

At the opening of the story Daniel Slade is working in a mine and he and his wife live in comparative poverty. Slade is filled with ambition, but his wife is contented. He discovers a gold mine and, with his newly acquired wealth, immediately sets out to make a position in the world. His aggressive personality and ability at once attract attention, and the possibility of a political career are pointed out to him by Senator Strickland.

Slade established himself in his new surroundings and he feels that his wife does not know how to take advantage of their altered circumstances. She is still the same simple, home-loving person. He becomes attracted to the Senator's daughter, who is ambitious, and agrees to marry him if he obtains a divorce from his wife.

The concluding episodes show how the wife rescues her husband from his folly, and how he finally persuades her to come back to him. He has now become the chief executive of the state and Mary at last takes her place as the Governor's Lady.

**Simply Separated.**

The janitor of a hall in a country place was asked by an entertainer from the city if there wasn't a piano that he could use for the evening's entertainment.

"Waal, yes, there is a piano down in the cellar," said the janitor, "but you couldn't play on it—leastways, not as it is, for it's full of books."

Then the janitor bowed to his wife: "Susan, where's the works of that piano?"

And Susan's voice floated down from upstairs: "Ain't they out in the garden?" —Washington Star.

**Largest Star Known.**

Canopus, the largest star known, with a luminosity of 47,000 times that of the sun, is invisible from the northern hemisphere. O. R. Walkley, an English astronomer, adduces testimony at great length to prove it the central sun of the universe about which all other orbs revolve.

**Appearances Deceptive.**

"Thompson has made a discovery."

"Indeed?"

"Yes. He says that he has discovered that the more buttons there are on a woman's coat the greater the probability that it really fastens with hooks and eyes." —Puck.

**Garbage For the Dogs.**

**Ruskin in the Kitchen.**

In her book of reminiscences, "Thirteen Years of a Busy Woman's Life," Mrs. Alec Tweedie says that her father, Dr. Harley, a well known London physician, was a great friend of Ruskin and often stayed at Brantwood. One night Ruskin asked Dr. Harley whether he liked tea or coffee before he got up.

"A cup of tea," he replied.

"Why don't you choose coffee?"

"Well, to tell the truth, I have lived so much abroad that I don't fancy English coffee. It is generally so badly made."

His host said nothing. The next morning Dr. Harley was awakened, and a strong smell of coffee permeated the room. Turning to a servant, he asked, "Is that my cup of tea?"

"No, sir; it is Mr. Ruskin's coffee."

"Mr. Ruskin's coffee! What do you mean?"

"The master was up early. He roasted the coffee himself, he ground the coffee himself, and he made the coffee himself, and he hopes you will like it."

**Growth of Wealth.**

The wealth of the world grows very slowly, and the amount of real saving is amazingly small. If, for example, the wealth of the United States when George Washington became president was equivalent to a billion dollars—and that perhaps is not a bad guess—and this amount could have steadily earned a little over 5 per cent every year since, this gain, compounded, would exceed the present estimated wealth of this country. This means that all the rest of the saving and the gains from new enterprises and a rapidly increasing population have only just about balanced the annual waste and loss. True, more than two-thirds of the wealth of nations is still the human machine and not the visible taxable property, but the fact serves to show how slight is the annual gain even in the premier get rich quick country of the world, the United States. —Carl Snyder in Collier's Weekly.

**No Simple Life at Ayr.**

The "simple life" finds no sympathetic atmosphere in Scotland and, above all, not in the "Auld Ayr" of Robert Burns.

Auld Ayr, when ne'er a town surpasses For honest men and bonnie lassies.

George Ferguson Munro is a newspaper person who writes articles for a Scottish newspaper. Munro wanted to live a free, untrammelled, outdoor life. He began last spring. He wandered over hill and dale, doing nothing, finding enough to eat and drink, lying on a shaded hillside reading a good book. He interfered with no one. The earth was his bed, the starry sky his roof. When it rained he went into a barn. Yet for leading this simple life he was taken by the rough hand of the law as a vagabond and sentenced by the magistrate of Ayr to three months' hard labor.—Indianapolis News.

**Dumas an Enigma.**

The elder Dumas was the greatest enigma in the literary world of Paris, for who has ever been able to explain just how and when all the books that bear his name were written? He loved the mysterious for its own sake. He told me how he had dabbled in magnetism and mesmeric experiments. He spoke with absolute conviction of the power of magnetism and declared that the whole of life and society was, to his way of thinking, nothing but a manifestation of magnetic force.

His talk was like the man himself, calm, monochromatic, without a trace of emotion. He was so far above discussion as to ignore it. When he was speaking he seemed to imply by his look and manner that it made no difference to him whether you believed what he was saying or not.—Francis Grierson in Century Magazine.

# THE CHURCHES

Two important church meetings are to be held in Newark next week, bringing to the city a number of clergymen and theologians of note from over the country.

At the Trinity Episcopal church will be held a preaching mission, the meetings continuing through the week and ending one week from tomorrow.

At the Baptist church a Ministers and Members' Bible Conference programs being arranged for Monday, Tuesday and Wednesday.

The conference is held for the purpose of increasing Bible knowledge and deepening the spiritual life of believers. Ministers and members of all evangelical churches are invited to attend and have part in the general discussions and prayers. Speakers not on program will be limited to three minutes. As the day sessions are almost continuous, carry your own refreshments and eat in the Sunday school room, first floor, where coffee will be served free. Bring your Bibles and make notes.

Trinity.

One of the most interesting features in a preaching mission, such as the one to begin in Trinity church on Sunday, is the question box. The opportunity is afforded everyone to ask questions concerning the Christian religion. The church doctrines, history, sacraments, etc. The questions are to be written without signature and dropped into a box. The missionary will then endeavor to answer them to the best of his ability.

The mission services will be, in addition to the regular Sunday services, at 7:30 every week day evening. This will be a popular preaching service. The service will be bright and about an hour in length. Familiar hymns will be used and many of them. There will be a children's service on Tuesday, Wednesday, Thursday and Friday at 2:45 in the afternoon, thus enabling the children to come directly from school to the church. These services are for all children.

The missionary is The Rev. H. H. D. Sterrett, rector of St. Paul's church, Columbus. The following is his list of sermon topics:

Sunday, morning service—"Our Need of God." Evening service—"The Master's Answer."

Monday evening—"What is Your Life?"

Tuesday—"Christian Discipleship."

Wednesday—"The Way of Prayer."

Thursday—"The Way of the Bible."

Friday—"The Way of Worship." Saturday—"The Way of Service." Sunday, morning—"The Kingdom of God." Evening—"His Benediction."

Offerings will be taken at the Sunday services only. The morning service on the last Sunday will be a corporate communion for all confirmed persons in the parish. Come to the mission every night at 7:30.

Y M C A NOTES

Charles Allen, Charles Mayer, Woolson Davis and Donald Power left Friday noon for London, Ohio, where they will attend the State Y. M. C. A. Conference for older boys over Saturday and Sunday. They will be met in London by Prof. H. J. Dickerson who will be the leader of Newark's delegation. Governor Willis was the speaker at last night's session of the convention.

Physical Director Wilson Galloway left Wednesday to spend Thanksgiving with his parents in Xenia, Ohio. Samuel Gormly, rooming in number eleven, spent Thanksgiving with friends out of town.

Basket ball is beginning to be the order of the day in the gymnasium. All classes are now beginning to play this game. This is a good time for the boys from the shops and factories to join and learn the game.

The busy men's class, which meets on Wednesday and Friday afternoons, is beginning to have a good attendance. There are many men in the city who would feel better and do their work more easily if they were to take an hour twice a week in this class.

A letter from Fred Glenn, a former member of this association, but now physical director at Mt. Vernon shows that the work under his charge there is making fine progress. All the members are glad to hear of Fred's success.

The automobile school is now well started and proper machinery is being placed in the room for the promotion of this work. Every member of the class should be on hand next Tuesday night at 7:30 o'clock.

The following is a list of new magazines which have been ordered: The Reading Room. We trust the members will offer any suggestions they deem advisable for the further improvement of our reading material: Collier's, Youth's Companion, Outlook, Illustrated World, Literary Digest, American Boy, American, Popular Science Monthly and World's Advance, St. Nicholas, National Geographical Magazine, Sunday School Times, Physical Culture, Field and Streams, Everybody's Magazine.

Ivan McPherson, who has been traveling with the Haggenbeck-Wallace Shows, as a trombonist, has returned to Newark for the winter. He has been working some in the office this week.

Dimitri Spiron, whose release from prison was secured through the efforts of the Y. M. C. A. some weeks ago, has received word from the immigration department at Washington that he is now released from bond, and is free to remain in the United States. Dimitri's case is a most interesting one in which the Y. M. C. A. has been assisting for three months.

The Harvard Crimson devoted to news of student life at that great university is being brought to the reading table each day by John Sherwood Fleek. It is hoped that all the members will appreciate this contribution to our tables, and use it accordingly.

The World War a Year Ago Today—Nov. 27.

Russia claimed successes over the German troops in Poland and East Prussia and over the Austrians in Galicia. In Galicia the Russians were advancing on Cracow and claimed heavy capture at Bochnia, thirty-five miles southeast of the fortress. At Cracow the Austrians were preparing for a siege and claimed to have repulsed the Russians.

Germans bombarded Rheims while a party of journalists from neutral countries were "doing" the besieged city.

## O. S. U. ALUMNI AND STUDENTS HOLD BANQUET

MORE THAN FIFTY GATHER AT WARDEN FOR ANNUAL DINNER

Prof. J. A. Leighton, of O. S. U. Faculty and Dr. E. E. Montgomery Among Those Who Spoke.

Members of the alumni and student club of the Licking county club of Ohio State University held their annual banquet at the Warden hotel Friday evening in one of the most successful banquets in the history of the club. The alumni met to recall their college days, the memories of which were refreshed by those who are now active students in the university. Licking county is one of the best represented counties of Ohio at the state university, and the club is one of the most active outside organizations. Dr. Joseph A. Leighton, of the department of philosophy of Ohio State University, was the principle speaker. The other speakers were Fred Molenpau, of the law college, and Ex-prosecutor James R. Fitzgibbon and Dr. E. E. Montgomery of Philadelphia. Ernest T. Johnson presided as toastmaster. About fifty were present, including the wives of many of the alumni.

The party met in the parlor on the second floor of the hotel, where old friendships were renewed. At 8:30 o'clock they went down to the main dining room where dinner was served.

The club was particularly fortunate in having Dr. Leighton as a faculty representative of the university. Dr. Leighton was introduced by Toastmaster Johnson and made an effective address which contained an abundance of interesting information about the university and its future. He told of the recent success in athletics and discussed the curriculum and the student body from a faculty standpoint. His talk was decidedly optimistic for the future of the university, and he stated that the university had now gained a national standing and that it should not be the purpose of the alumni merely to see it the greatest university in the state, but it should be their purpose to see it the greatest in the United States.

Fred Molenpau then made a brief talk from student standpoint on the future of the school.

Ex-prosecutor Fitzgibbon offered a toast, dedicated to the ladies, which was appreciated by all.

Dr. Montgomery was then introduced and made an inspiring address that was interpolated by humorous stories. His speech carried a lesson with it for all.

## SECURITY LEAGUE TO ASK PUBLICITY OF DEFENSE PLANS

Chicago, Nov. 27.—The National Security League which opened its first national conference here today is prepared to make demands for full publicity for the technical recommendations of army and navy experts on problems of national defense, it was announced by officers of the league.

Three separate reports are to be presented to the conference today, one covering the actual condition of the navy, and a discussion of the policy already outlined by Secretary of the Navy Daniels, another discussing the army and Secretary Garrison's report and a third dealing with conditions in the organized militia. Henry L. West, executive secretary of the league said that five hundred delegates representing every state in the country and practically every large city are expected to attend the conference. Included in the list of speakers are Governor David I. Walsh of Massachusetts; Luke W. Wright, former secretary of war; Lafayette Young of Des Moines; former U. S. senator; Gov. Edward F. Dunne, of Illinois; Heneray A. Wisegood, president of the Aero Club of America, and Gov. E. L. Philipp, of Wisconsin.

## GOV. WILLIS ASKED TO CENTENNIAL AT VINCENNES

Indianapolis, Indiana, November 27.—Governor Samuel M. Ralston has invited Governor Willis, of Ohio, to accompany him to Vincennes, Indiana, and participate in the centennial celebration of that city on December 9, 10 and 11. In the invitations, Governor Ralston says that as Vincennes was the first white settlement of the northwest territory which later was divided into the states of Indiana, Illinois, Minnesota, Wisconsin, Michigan and part of Ohio, he thinks it would be appropriate for the governors of these states to take part in the celebration.

## STORAGE COMPANY ASKS PERMISSION TO INCREASE CAPITAL

Columbus, Nov. 27.—The Sheriff Street Market and Storage company of Cleveland, today asked the Public Utilities commission for authority to increase its capitalization from \$1,000,000 to \$2,500,000, \$600,000 of the proposed increase to be used in cancelling \$500,000 notes given last April. If the utilities commission approves the capitalization proposal, the secretary of state then will be asked to grant the new issue.

## PEACE PLANS BY NEUTRALS LOOK BRIGHT

Washington, Nov. 27.—Prominent advocates who are behind a movement for a conference of neutral nations to be called in an effort to end of European war, expressed themselves as optimistic today over their plans.

A delegation representing the movement saw President Wilson yesterday in an effort to induce him to give it his support, but the president was non-committal. One of the women said afterwards, however, that she believed the president was deeply impressed, with the information laid before him adding: "I think you will hear something from the White House before very long." Although the president will make no announcement regarding the conference, his position is that he has as yet had no word from Europe which would lead him to believe that the time was opportune for him to take any step.

## BRITISH ADVANCE AT CTEPSON WAS VERY IMPORTANT

London, Nov. 27.—The battle between British and Turkish forces at Ctesipon near Bagdad, which for a time looked like a check to the Mesopotamia expedition, is now reported to have been a success of first importance. Information received today is that the retirement of the British after the capture of Ctesipon, occasioned by a lack of water, was only temporary. After the Turkish forces withdrew in the direction of Bagdad as announced officially, the British reoccupied their former position, encountering no opposition as they took possession of Ctesipon for the second time.

The British troops at once began the work of clearing the Turkish trenches which were filled with dead or wounded soldiers. The British captured a large quantity of arms and ammunition in addition to the 1,200 prisoners previously reported. Ctesipon has been the scene of many fateful battles. The ancient city besieged and plundered a dozen times by Greek and Roman invaders from the east before the Arabs finally sacked it.

## Fund to Convert Wilson to Suffrage; Its Use a Problem

New York, Nov. 27.—Officers of the Congressional Union for Woman Suffrage are wondering today how they can best make use of \$1,000 contributed by Mrs. O. H. P. Belmont for the express purpose of "converting" President Wilson to the support of a proposed suffrage amendment to the federal constitution.

The congressional union has received a contribution of \$100 to "convert" Elihu Root, who was one of their strongest opponents in the recent campaign in this state.

## COTTAGE SCHOOLS FOR DEFICIENTS IN PITTSBURGH

Pittsburgh, Pa., November 27.—William M. Davidson, superintendent of the Pittsburgh public schools, announced yesterday that three "cottage schools" will be established here where special instructions will be given children whose mental development has been retarded.

Superintendent Davidson said that he also favored special instruction for "over normal" or especially bright children and would later urge the local board of education to take up this question.

## U. S. Ship Owner Asks a Convey for Steamer Winnebago

New York, Nov. 27.—The American Trans-Atlantic company, several of whose steamships have been seized by British warships under suspicion of German ownership, awaits today an answer of Secretary Lansing to its request that an American warship be sent to Buenos Ayres to convey its steamer Winnebago to this port and save her from capture by British cruisers.

## HUGE AUSTRIAN SHELL BURSTING NEAR ITALIAN ARTILLERY SHELTER KILLS TWO

This remarkable photograph was made under the most thrilling circumstances and with great personal risk by the operator who was in an Italian artillery shelter when a huge Austrian shell burst close by. The terrific explosion caused the collapse of the artillery shelter and buried the operator and his camera. He was later found safe and the camera was intact. The explosion killed two and wounded two in the artillery shelter.

## Industrial Chemistry Offers a Promising Field For Young Men

By Dr. THOMAS H. NORTON, Chemical Expert of the Bureau of Foreign and Domestic Commerce

TO the average man who has had no occasion to think much about the matter the manufacture of substances vaguely referred to as chemicals is the sole business of the chemist, just as making shoes is the sole business of the shoe manufacturer.

The fact is that, although the manufacture of chemicals is a very large industry, it is only one branch of chemistry, using that term in its widest sense. There is indeed hardly any phase of industrial production, whether the product is to be food, clothing, heat, light, power or the materials from which these things are created, IN WHICH THE FACTOR OF CHEMICAL CONTROL IS NOT AN ESSENTIAL ELEMENT.

I can say without hesitation that this branch of industry offers a most promising field for any intelligent, industrious youth who is willing to go through the training necessary to make him a good chemist.

AN AMBITIOUS AND COMPETENT MAN CAN WORK HIS WAY UP THE LADDER OF SUCCESS AS RAPIDLY IN CHEMISTRY AS HE CAN IN ENGINEERING OR IN ANY OF THE PURELY MECHANICAL PROFESSIONS.
